## ONLINE CENTER

### Diving into

As students prefer to have control over how they manage their time, CIEC provides flexibility where we give students the opportunity to plan study time at their convenience to help them study and family life.

Academic Supervisors

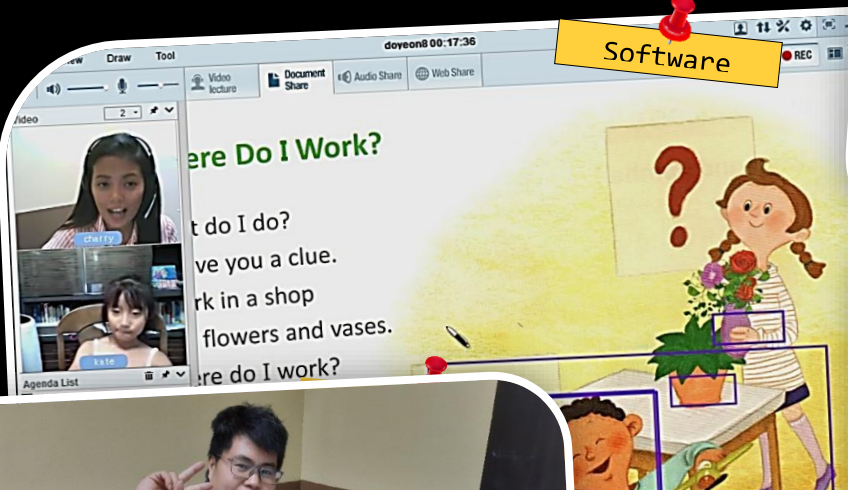

Online Coordinator

### Continuous learning

After completing face to face learning, we encourage our students to study continuously with us online, not only to maintain acquired learning from face to face setting, but also guide them in their continuous learning and development.

Communication Specialists

### Effectiveness

Providing good quality education and ensuring effectiveness, CIEC continues to advance its caliber to be able to deliver positive results that meet learning objectives. By the active support of our supervisors and coordinators, through their constant supervision, monitoring and observations, we can assure efficiency and consistent progress.

# Weekend plus

## Activities

An integrated activity of English proficiency and academic skills was designed to prepare our junior students for international academic challenges. These activities are student-directed where students' choices determine the outcome.

## Peer learning

Students are required to speak English at all times as they discuss and collaborate. In this method, students learn a great deal by explaining the process to others and by participating in activities in which they can learn from their peers.

## Task

We believe that learning occurs through the project. Students are given tasks which they are required to complete within the given time, and which they are encouraged to use English as their medium in completing the task through collaborative work. Objectives are also provided, for guidance and direction, though the outcome is determined by them. They are given the independence to understand the nature of the given task. Through collaborative effort, students research, outline, create solution or prototype and reflect, guided by the teacher.

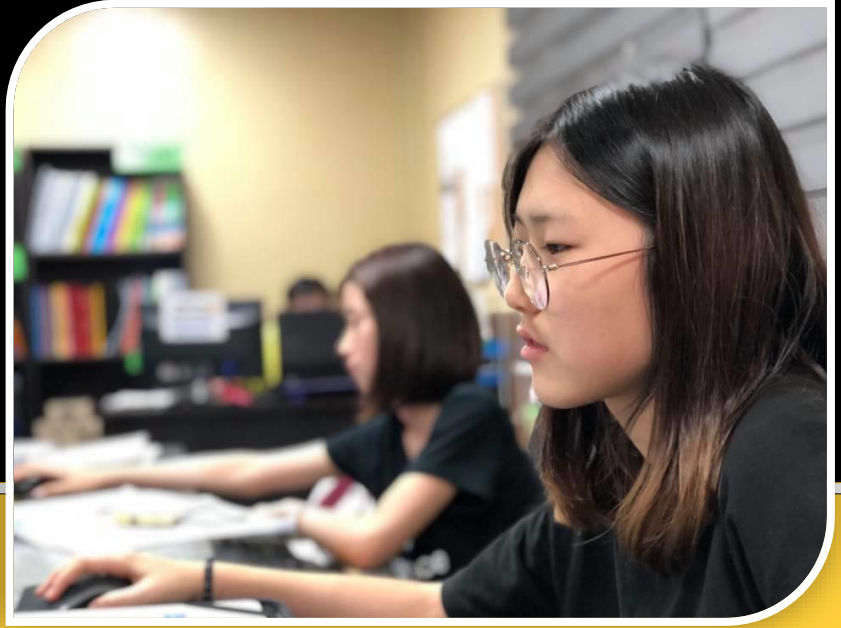

## Successful completion of the VIETNAMESE Camp!

The commencement of CIEC Vietnamese camp started on June 2019 with 90 students providing the best education necessary for their success in the academic world. Students took different courses such as IELTS, ACT, and General ESL. CIEC have provided programs that would ease the worries of the parents and develop the abilities of their children. With the help of CIEC's competent instructors, your children will surely enjoy learning and gain more confidence in communicating in English not only with friends and teachers but also with foreigners. The different activities held in camp allows students to relax and learn more about social and behavioral skills. Education is not only limited in the four wall of the classroom but takes place all around.

**"Let your children enjoy learning and experience the different cultural diversity here in CIEC!"**

# PRE-MANAGEMENT COURSE INTENSIVE SPARTA

The Intensive Sparta course encourages student to be independent and responsible in their own learning needs. CIEC provides programs that assures the parents with their child/ children's safety, enjoyment, and quality education. The course allows students to improve in a short amount of time because of its rigorous training with 10 classes or 500 minutes each day. Each of their class focuses on their weakness and development of their skills. With the guidance and observation of the teachers and managers 24 hours every day, CIEC assures their safety and effective development in their studies.

## INTENSIVE CLASSES

With 10 classes (4 1:1 classes, 3 group classes, and an additional 3 night classes), students have the opportunity to learn more. Classes are focused in macro and micro skills of the English language which is necessary for them to acquire, grasp, and master to help their goal to succeed in the Academic world.

## WEEKEND ACTIVITY

CIEC provides activities for students to relax and learn. Allowing them to enjoy studying will motivate them learn more. Visiting museums, resorts, sports activities centers, and project based activities enables students to experience variety of learning task which not only improve their academic skills but also their social and behavioral skills.

## SAFETY EDUCATION with the MANAGER

The school always prioritize student's safety and will always remind them the importance of the safety rules. The managers not only monitors them once they wake up and their classes but until they sleep at night.
